## Product Specification

---

**Product Name:** Tellurite Egg Yolk Enrichment Solution

**Product Code:** SG7270

---

### PRODUCT DESCRIPTION:

Supplement for Baird Parker Agar Base.

### USE:

Under aseptic conditions within a clean workbench, unscrew the vial cap and remove the tamper-evident seal. Incorporate the reagent into the prepared culture medium base according to the specified ratio.

Aseptically add the contents of one vial of the 25 mL Solution (TJ005F.25) to every 475 mL of sterile Baird-Parker agar base that has been pre-cooled to approximately 50°C.

Aseptically add the contents of one vial of the 5 mL Solution (TJ005F) to every 95 mL sterile Baird-Parker agar base that has been pre-cooled to approximately 50°C.
